«Students are going to love this book. Employing ethnographic approaches and critical questioning, 'Pop Brands' considers how corporations like Coca-Cola, Jack Daniels, Adidas and Virgin partner with young people, helping music fans to feel empowered even as those fans actively engage in producing the culture of branding that threatens the very authenticity and freedom young people would most like to seek out and celebrate.» (Lynn Schofield Clark, Associate Professor, Director of Graduate Studies, and Director, Estlow International Center for Journalism & New Media, Department of Media, Film, & Journalism Studies, University of Denver)

«Nicholas Carah's 'Pop Brands' is an exemplar of recent work bringing cultural studies sensibilities and methods to our understanding of cultural industries and commercialism. By combining a variety of methods including ethnographies of branded music events and interviews with fans and music professionals, Carah very smartly engages the complexities of popular music production, promotion and fandom in an age of integrated marketing and global-scale corporate branding.» (Matt McAllister, Penn State University)

日本风景画对 19、20 世纪的西方艺术产生了巨大的影响。无论在日本还是在西方，日本风景画都被看作是浮世绘的代表。然而它却没有任何历史记载记录。本书是对于那些想了解这个著名艺术的历史的人们的一个概览，同时在叙述中将浮世绘与日本的国家概念结合起来看待。

目前还没有任何一本日文书或英文书以全书的篇幅来研究日本浮世绘，研究该领域的葛饰北斋和安藤广重这两位泰斗：这两位大师是基于什么样的社会环境而出现？他们的老师是谁？他们对日本浮世绘的影响有多大？……本书除了对这些问题的研究，还探讨了了解这门艺术其他因素，比如日本 19 世纪对外开放等。

【评论】

“How does sound become local in the global age? This is the question posed by Jeroen de Kloet. As much an ethnography of the subjectivities articulated to pop music practices as it is an interrogation of the assumptions of sinocentricity, this book constitutes a provocative statement on ‘Chineseness’ at the crossroads of contemporary media, everyday life, and geopolitics.” — Rey Chow, Duke University

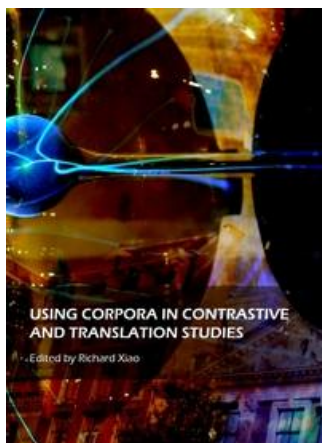

“Jeroen de Kloet provides a rich and fascinating account of the myriad forms of rock in contemporary China. This book transformed my understanding of contemporary Chinese culture – and of rock music beyond Europe and North America.” — David Hesmondhalgh, University of Leeds

“An authoritative, scholarly and up-to-date account of an important and fascinating field of popular music which sets a new benchmark in global music studies.” — Tony Mitchell, University of Technology Sydney

【评论】

"This book provides firm evidence for the "coming of age" of corpus-based approaches to both translation and contrastive language studies. This book provides a host of examples of why any serious researcher in these fields should embrace the corpus-based approach as a matter of priority."

- Professor Tony McEney, Lancaster University, UK

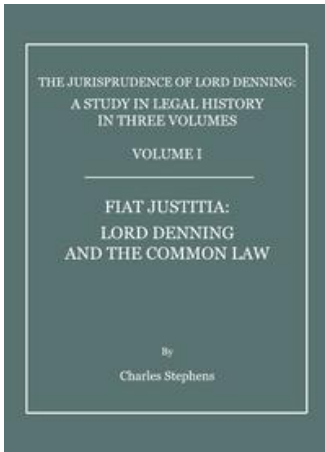

"The use of electronic corpora is transforming more and more fields in the study of language, including contrastive and translation studies, providing new insight into language relationships and characteristics of translation. Apart from showing the wide range of issues in current research, the present volume is significant with respect to the number and variety of languages included: Chinese, Dutch, English, French, German, Italian, Japanese, Persian, Portuguese, Spanish, Tok Pisin, and Uygur. The book represents an important

step forward compared with previous corpus-based contrastive and translation studies, which have tended to focus on a limited number of (chiefly European) languages."

- Professor Stig Johansson, University of Oslo, Norway

"This is an important book that provides us with a wealth of empirical evidence derived from a broad range of genres, languages and translation modalities. It builds on established corpus-based methodologies and explores new avenues of scholarly enquiry that are of true value to the international research community."

- Sara Laviosa, University of Bari, Italy

《丹宁勋爵的法学：法律历史研究，3卷》**The Jurisprudence of Lord Denning: A Study in Legal History, in Three Volumes**

作者：Charles Stephens，剑桥学者出版社

ISBN: 978-1-4438-1252-8，2009年，英语，99.99 英镑

阿尔弗雷德·汤普森·丹宁(Alfred Thompson Denning)是第二次世界大战以后英国最著名的法官和享有世界声誉的法学家之一。他从1923年当律师，1982年在英国民事上诉法院院长(Master of Rolls)的任内退休。在近60年的法律生涯中，他积累了极为丰富的法律实践经验，积极、大胆地参与英国战后的法律改革，并作出了重大贡献，成为英国战后法律改革史上划时代的人物。丹宁勋爵不仅是一位老资格的法官，而且还是一位享有世界声誉的学者。本书所含的3卷分别是：《Fiat Justitia: Lord Denning and the Common Law》、《The Last of England: Lord Denning's Englishry and the Law》和《Freedom under the Law: Lord Denning as Master of the Rolls 1962-1982》，研究了丹宁勋爵的法学不同方面。

【作者介绍】

Charles Stephens was educated at Shrewsbury School and New College Oxford, of which he was a Scholar. He has been awarded an MA in Modern History by the University of Oxford and an LLB and PhD by the University of London. He is currently a Lecturer in Law at the Open University and Head of Politics at Queen's College, Harley Street. Since 1985, he has been engaged in research on the history of Britain between 1945 and 1979. His study of the jurisprudence of Lord Denning is the first fruits of that research.

【评论】

“Lord Denning was a man of monumental influence over the development of English law, both in its substance and style. In this remarkable trilogy, Dr Stephens has produced a magnificent exposition and analysis of Denning’s contribution to the common law – a corpus of rules now affecting a third of the world. The trilogy is a work of profound historical significance. Through both minute exegesis of Denning’s judgments and grand narrative of their historical setting and significance, Stephens’ work gives an understanding of a judicial phenomenon that shaped important aspects of the twentieth century. The breadth and depth of the studies, and the scholarship from which the writing flows, are extraordinary.”

- Professor Gary Slapper is a professor of Law and Director of the Centre for Law at the Open University. With Dr David Kelley, he is the author of *The English Legal System*, an important text book which is now in its 9th Edition

“The Jurisprudence of Lord Denning: A Study in Legal History by Charles Stephens, a set of three complementary books on the philosophy and judgments of Lord Denning is, in my opinion, by far the most thorough and convincing analysis and study of Denning in existence. The trilogy is a scholarly contribution of the very highest quality and the utmost importance in its subject-matter; it is also a wonderful read. It is quite the best book we have on him, I cannot think of any work on Lord Denning that better deserves publication.”

- Professor Antony Lentin is a retired Professor of History at the Open University and a Member of Wolfson College Cambridge. He is also the author of *The Last Political Law Lord: Lord Sumner 1859-1934* published by Cambridge Scholars Publishing in 2008 and of several judicial biographies in the Oxford Dictionary of National Biography, including those of Lord Reading and Lord Maugham.

"Viewing Denning from an historian's eye view offers academic and general readers alike a useful perspective on the influence judicial decisions are likely to have on the body politic, which in turn influences everyday life."

——Phillip Taylor MBE and Elizabeth Taylor of Richmond Green Chambers
